InLattice.Net is a web service that provides an Internet platform to exchange information between companies. The hosted application enables multiple organizations to send and receive invoices, purchase orders, payment information and other data over the web. InLattice.Net is a fully integrated application between customer and vendor accounting packages.

QuickBooks Pro Advisor Ken Reid of MasterType Accounting and Business Services says:
“InLattice is a fantastic service for sending and receiving invoices. It is very user friendly. The application helps to reduce invoice discrepancies and provides for quicker resolution of disputes. I wish I had InLattice earlier”.
