

Infonics, Inc. is pleased to announce the newest addition to its suite of web services InLattice.net.

Infonics, Inc. launches InLattice Vendor Portal for QuickBooks that automates the processing of incoming invoices and can distribute purchase orders and payment information. Date Released: 12/28/2006 Infonics, Inc. is pleased to announce the newest addition to the suite of internet services available - InLattice Vendor Portal for QuickBooks that automates the handling of incoming invoices from vendors and automates the distribution of POs and payment information to vendors.

InLattice Vendor Portal for QuickBooks automates the handling of incoming invoices from vendors and automates the distribution of POs and payment information to vendors. Using InLattice Vendor Portal for QuickBooks, firms can ask their vendors to submit invoices online, eliminating the manual processing of incoming invoices. Invoices can be posted to QuickBooks with a click of a mouse. The application allows vendors to view invoice status, purchase orders, and payment information on the web.

InLattice.Net is a web service developed, hosted and managed by Infonics. InLattice.Net provides an Internet platform to digitally exchange information between companies. The hosted application enables multiple organizations to send and receive invoices, purchase orders, payment information and other data using a secure internet connection.

Features:

- * Post vendor invoices to your QuickBooks with the click of a mouse.
- * Easy to use – use your mouse to distribute purchase orders and payment information to multiple vendors.
- * Attach an unlimited number of documents such as: import/export doc's, shipping doc's, time sheets, EEOC forms.
- * Archive invoice, purchase order and payment data along with supporting documents.
- * Keep track of what documents have been sent, to which companies, when and what was noted or attached.
- * No software to buy and no hardware to buy.
- * Vendors only need an InLattice identification and password
- * 24/7 access using secure Internet connection
- * Subscription and usage based fee. No licensing fee or annual maintenance cost

Benefits:

- * Reduced data entry effort, time and errors.
- * Easy tracking of incoming invoices, supporting documents and notes.
- * Reduce vendor phone calls.
- * Provide invoice status and distribute purchase order and payment information.
- * International capabilities.
- * Reduced paper handling, filing and archiving.
- * Get connected with your vendors with a common view of documents.
- * Automated routing for review and approval in a secure environment.
